ROSWELL SPACECRAFT HELPED DEVELOP OUR SPY PLANES

Aviation artist William M. McDonald writes, "Now that legendary Lockheed =
engineer and Chief model kit designer for the Testor Corporation, John=20
Andrews is dead, I can announce that he personally confirmed the design=20
connection between the Roswell Spacecraft and the Lockheed Martin =
Unmanned=20
Combat Air Vehicles (UCAVs), spy planes, Joint Strike Fighters, and =
Space=20
Shuttles." How can anyone miss the comparison that my =
Stingray/Porpoise-like=20
Chimaera design has in common with the three "Aurora" planes, the F-117=20
Nighthawk, the TR-3A "Black Manta," and even the original old =
YF-12A/SR-71=20
Blackbird spy planes of Kelly Johnson's Genius? John Andrews was a =
close=20
personal friend of "Skunk Works" CEO Ben Rich, the hand picked successor =
of=20
Kelly Johnson, the man famous for the F-117 Nighthawk "Stealth" fighter, =
it's=20
half-pint prototype the HAVE BLUE, and the top secret F-19 Stealth=20
Interceptor. Before Rich died of cancer, Andrews took my questions to =
him=20
and Rich confirmed:
1. There are two types of UFOs. The ones we build, and the ones =
THEY=20
build. We learned from both crash retrievals and actual =
"Hand-me-downs." The=20
Government knew, and until 1969 took an active hand in the =
administration=20
of that information. After the 1969 Nixon 'Purge,' administration was=20

handled by an international board of directors in the private sector.

2. 'An item,' as opposed to 'The item' was recovered near the =
world's=20
only combat operational atom bomb base (Roswell AAF) in 1947. Hull =
design, =20
aerodynamic measurements, propulsion info was passed directly to Jack=20
Northrop and Kelly Johnson, beginning in 1950. A major block of data =
being=20
passed on from 'The Working Group' at Wright Patterson AFB's Foreign=20
Technologies Division in 1952. The item refers to the top secret=20
designation of Kelly's original variant of the U-2 (TR-1) spy plane in=20
congressional and Pentagon budgets in the 1950s.

3. Nearly all 'Biomorphic' aerospace designs were inspired by the =
Roswell spacecraft from Kelly's SR-71 Blackbird, onward to today's =
drones,=20
UCAVs, and aerospace craft. =20

4. The inward canted vertical stabilizers of the F-19, the HAVE =
BLUE,=20
many drones, some UCAVs, and the SR-71 matched the 30 degrees inward =
cant of=20
the Roswell spacecraft's shark fin shaped pair of vertical stabs or=20
'Winglets.' Same goes for the wing camber to fuselage "Blend" of =
the=20
airframe designs.

5. The outward cants of the F-22 Raptor, the F-117, the McDonnell =
Douglas YF-23, and the TACIT BLUE stealth concept prototypes perform =
similar=20
aerodynamic functions for stability in high performance flight.=20

6. Rich observed that the impression Kelly Johnson's contacts had =
was=20
a negative impression and Kelly implied in rare conversations on the =
subject=20
that "Factions" from "Out there" were a threat, more than they were a=20
blessing. The cost of having "Them" around was "Unimaginable" and=20
"Unbelievable." =20

7. It was Ben Rich's opinion, that the public should not be told. =
He=20
believed they could not handle the truth, ever. Only in the last months =
of=20
his decline did he begin to feel that the 'International corporate board =
of=20
directors' dealing with the "Subject," could represent a bigger problem =
to=20
citizens' personal freedoms under the United States Constitution than =
the=20
presence of off world visitors themselves.=20
Andrews passed this information on to me in stages, from 1994 until my =
last=20
phone conversation with him around the Christmas holidays of 1998. =
Thanks to=20
William M. McDonald at Argonaut-Greywolf@home.com. Editors Note: I =
thought=20
it was disc shaped, but we have many reports there are both ours and =
their UFOs in our skies.

LONG ISLAND, NEW YORK DISC

MASTIC -- A taxi owner reports seeing a large hovering disc shaped craft =
on=20
July 14, 1999. His passengers also saw the disc as they drove to nearby =
Shirley at 11:20 PM. He picked up a second set of passengers and drove =
the=20
ten minutes back to Mastic where he saw the disc shaped like two saucers =
laid=20
rim to rim. It was 500 feet in altitude made of brightly polished =
aluminum. =20
It was flat on the bottom with a slight rise at the top. There were =
bright=20
lights on the top and bottom. Thanks to Frank at Pat Marcattilio's =
MUFON UFO=20
Meeting at the Hamilton, NJ Library the first Wednesday of each month. =
And=20
thanks to Pat for donating an UFO exhibit panel to the Air Victory =
Museum in=20

Medford concerning Captain Ruppelt of Blue Book.
