Reader Comments

Regarding "EG&G Special Projects" - Latest First

EG&G DEVELOPMENTS WITHIN THE FIELD OF (EMP)

From information gathered from a number of sources i firmly believe in the existence of E.T. life and the US Government's involvement with maybe hybrid technology that is not of human origin . If anybody out there could email me with information further to this subject and this company's involvement within the field of electromagnetic propulsion as i beleieve that this is the only power source available for the aircraft that so many have seen. Manouvering capabilities and speed would in my mind originate to this topic. Who knows the truth might be out there!! CONTACT ME ASAP!! THANK

Edgerton's patent record

It is interesting to review Edgerton's (E of EGG) patent record over the years. Also, G & G were both ex- Nazi scientists, I believe. Of course

EGG set up the instrument- ation for the Trinity blast, and isn't EGG where the term "egg-heads" came from? Has EGG erased that unlinked reference to "Special Projects" - I think it is under the bio of the present CEO.

-- Rick Nelson 4/11/98 (#2)

EG&G Inc.

I haven't seen any discussion on this topic, but has anyone noticed that EG&G (www.egginc.com) celebrated a 50 year anniversary in 1997? That's 1947-1997.. hmm. 1947.. is that a coincidence?
