Regarding "Norio Hayakawa" - Latest First

NUTS

Norio Hayakawa is a delusional, conspiracy oriented, undertaker. Those of you misfortunate enough to take him seriously are quite naive. We need Glenn Campbell to continue his fight make our government more accountable to the people. Come Back Glenn!!!

[A great help to me...](#)

Mr. Hayakawa has been a great supporter and helper of my group. I am very grateful for all he has done for us, and glad to be a supporter of such as wonderful person. Thank you.

PHOTOS NEEDED FOR A BOOK IN PROGRESS

I've previously seen, but now can't find photos of blueprints or drawings of alleged German Flying Saucers (full disc, not the "wing"). I will return all photos. New book has 30 chapters/stories. The above is one of them. I've written 8 books (3 on WWII). Check my credentials on amazon.com and barnesandnoble.com.(current and out of print). Provider of photo(s) I use in new book will receive an inscribed copy; mention in acknowledgments; and photo credit.

It is also about information

This is a quest we are on for information. To prove or disprove can only be accomplished with the aquisition of information. One must also be readily able to compile large bodies of information in order to sort through the quagmire of disinformation. But over TIME, we learn the truth not by a supposed grandiose exposure but by a careful compilation and eventual revelation.
