## Reader Comments

Regarding "Budd Hopkins" - Latest First

### Other questions

I just finished reading "Witnessed". I've read a couple other of Budd Hopkins Books also. As in Witnessed, whereas "Richard" suspected that

"Johnny" was his son, a simple DNA test would prove or disprove this question. There are several other situations that DNA testing would be in order.

### hardly

100% horseshit.

-- oh krill ([joeldmn@earthlink.net](mailto:joeldmn@earthlink.net)) 7/20/99 (#3)

### I think not, old fruit

This man deserves our praise, not admonishment, for coming forward and writing such novels. Do you think you could do better? I was abducted when I was 3 years old. Those horrid beasts ripped me from my crib at our summer home in Bar Harbor. I was raped of my childhood. I returned to Earth 14 years later, a grown woman.

-- Catherine Calderyoung 3/30/99 (#2)

### The book "Witnessed" - more fiction than fact

I just finished reading "Witnessed" by Budd Hopkins, about the Linda Cortile UFO abduction in New York City. Mr.Hopkins seems to make an awful lot of assumptions based on the information presented to him. I am struck by the fact that he is a sculptor by trade, not a scientist, and his books seem like nothing more than a money making venture to me. Does anybody else feel, as I do, that this book is basically a lot of crap?
