- [Brief review of Lyne's "Space Aliens from the Pentagon"](#) - News article - Source: Tucson Weekly <2/20/98 #1>
"This self-published text has high entertainment value and provides ample proof that its writer, William R. Lyne of Lamy, N.M., is either a grade-A crank or the man with all the answers. According to Space Aliens, the 1947 UFO crash at Roswell was merely a government hoax seeking to distract the public's attention from researches using Tesla technologies seized from the Nazis! Conspiracy theory at its best. (Creatopia Productions)"

propaganda concerning UFOs and "aliens" - Opinion - **Dissenting** - By William R. Lyne - Published: 7/95 - Source: [Space Aliens From the Pentagon](#) (Book), Page 264 [2nd Ed., ISBN 0-9637467-1-5] <2/17/98 #2>

Non-fiction: Expose' of government covert, subliminal or overt use of false propaganda, misinformation, mind control, or mystical control of society, and social, legal and judicial abuse, executed under national security laws, to suppress flying saucer and other advanced transportation, energy and other breakthrough technologies, for the purpose of maintaining a coercive political, economic and technological corporate-state monopoly. Based on over 40 years research, the book not only takes apart the misinformational conspiracy piece by piece, but presents a photo of the only known extant piece of WWII German flying saucer equipment, and explains the scientific basis for the technology. This 1995 version of the book, which in part repeats information first published in the first edition of June, 1993, establishes the author's knowledge of a CIA operative who intensively trained "The Two" in a house the threesome occupied for about three months, in Santa Fe in 1972, after which the couple commenced to create and lead the cult which eventually committed suicide at Rancho Santa Fe, California.
