"Psychic Warrior" stands out from the profusion of other spiritual books on the market these days. This is due, in part, to the quiet, convincing intensity of the writing and of the story. But it's also due to Morehouse, himself, a man who begins as a soldier, a minion of the military, and ends up as a spokesman for world peace and the evolution of human spirituality.

Reader Comments

Regarding "David Morehouse" - Latest First

remote viewer

please contact me if you know how to find out about how "numbers" are employed as coordinates for targets used by Morehouse and the other viewers. I have a series of numbers I dreamt concerning Osama Bin Laden and I feel as if they will go to waste if I do not know how to use the numbers I was given. Anyone, please contact me at nuit56@hotmail.com or gingersangel@snap.com

If 10% is true it is amazing beyond believe

I have read this book, I was amazed, if 10 % of it is true then we should all get down on our kness and pray. I live in the Washington area and 'bumped' into something along this line, 10 % or more is probably true. I would tell you more, buy 'THEY' would have to kill you. Make of it what you will but there is something spitual out there. Live in the light, walk in peace, and watch your back. Captain America

David Morehouse, Uri Geller and Jonathan Margolis

Having spoken recently with Uri Geller and Jonathan Margolis, I can only conclude that we do have something to fear from Government Agencies that try to repress the truth. Why oh why!, can't these people allow these special gifts be used for the benefit of mankind, and not just for various 'State' security purposes ?. Think for one moment how crime could be reduced, how medical breakthroughs could happen, instead of trying to kill someone half way across the world. It took a brave man to buck the system. I know, I spent 11 years in the RAF, under the Official Secrets Act. Take heart and have hope Rob
