Since *Project Preserve Destiny; Insider Account of an Alien Government Cover-up* was offered for sale to the public on January 20th, 1997 we have experienced a learning curve regarding our method of paying our readers to tell others about our book. In response to a large contingent of readers residing outside the US, we have revamped our "Recommendation Bonus" system to accomodate them. # Recommendation Reward

WM Publishing® will reward it's readers for telling others about our books by paying you a recommendation reward. This reward will be based on the purchases of people on your 7th level. This means you tell someone about our book, then that person tells someone, and they tell someone...etc. The people that purchase a book on the 7th level down from you will earn you a 15% reward. This means you will receive a check from us for 15% of the purchase price your 7th level pays for their book.

It's as simple as that! This reward is a gift\* from us to you, to show you our appreciation for spreading the word about our publications.

\*For US residents, gift taxes may apply if reward totals more than \$10,000 in one year. Consult your tax advisor.
