Regarding "Bill Uhouse" - Latest First

### Communicate With Jayrod

It is my sincere desire to communicate with you, personally. I realize that , to our government, weapons are of great importance, but to the citizens of our earthly demention, there are a lot more important information, like ways to help each other due to illness, for instance. I have searched for ways to contact you, but since the government is so adamant that you do not exist, it is very difficult to get in touch.

### Mistakes in Jarod-2's claims about the simulator

I noticed two glaring innacuracies in Jarod-2's account of the simulator. First, he gave the capacatance of the capacitors in volts; the correct units are farads. Second, the amount of friction from the ball pivot wouldn't be increased by making the ball so big, although a large pivot would be needed so as to bear the weight. Since the only two accounts of any technology found in the simulator are incorrect, I doubt that Jarod-2 was ever an engineer.
