Tiahuanaco

Mysterious ancient ruins exhibiting advanced construction technology.

Unexplained: (1) How were the heaviest stones moved? (2) How temple was constructed on high-altitude, barren plain with few resources? (3) How did builders learn to attach stones with metal "staples"?

Reader Comments

Regarding "Tiahuanaco" - Latest First

shifting poles

Pacific coast of So.Amer. continent rose up 12,000 ft. when poles shifted from Southern Greenland to present location about 12,000 years ago. Resulting earthquakes and tectonic activity halted Tihuanaco construction. Tidal waves from north killed, buried Siberian mammoths and carried Arctic seals from ocean to Lake Baikal, where they are today.

Tiahuanaco

There is strong evidence that Tiahunaco and most certianly PumaPunku was built at a much lower elevation that provided a manageable climate that promoted a stable enviroment of a large population. This however does not fit into the dates given. However how could this city have to such deplorable condition in less than 200 yrs before discovered by the Spanish Vandals. All the damage was not caused by looting but from time it self.

-- ViraCocha (PrimeEvil3@aol.com) 5/25/99 (#1)
