Regarding "United Kingdom" - Latest First

Crop Circles and Small "Silver Balls & Discs"

There have been five different amateur camcorder films made of tiny silver balls or discs flying in and around fields where crop circles have formed. All this footage is from England. I am currently making an independent video-documentary called "Crop Circle Update" and would be grateful if anyone has any eye-witness accounts of similar tiny silver balls, 'lights' or discs (usually no bigger than your fist). Ideally, I would like to include ALL amateur footage of these tiny silver balls in my next documentary. Please tell me anything you know. Thankyou.

Phased Array Radar Detection of UFOs

There was a newspaper report in the Uk of phased array radar detecting huge craft flying in atmosphere at 24,000mph. RAF operates this radar. Supposed to be conference on data in June. Anyone else picked up this info?

Angel in Gateshead

Anthony Gormley has built the angel in Gateshead, England. It is made out of iron and looks like a man with wings like those on a Jumbo Jet and the same size. I believe it is meant to be picked up by alien radar and marks the planet for invasion. A local artist painted the road that it is on with the sculpture on the hill and cars going past and millions of angels in the sky. I think the angels in the sky are alien space ships the same shape, only smaller. They are designed to carry one man and the wings contain solar panels.
