Regarding "Ohio" - Latest First

MILITARY ACTIVITY

There is always a lot of military activities throughout Ohio. So it is not surprising about the activity around the Findlay airport. As for the Army Ammo Plant near Ravenna, it has been re-opened, for storage of weapons. At least that is what is told us by the government. Yet that doesn't explain reports of strange lights by local residents.

Link to Adams Cty sighting and 73' incident at Mansfield, OH

I read a chapter in a UFO book that talked about a man named Lawrence Coyne from Cleveland that was flying in a four man crew helicopter

when a UFO came down and appeared to be on a crash course with the copter. The date of the incident is the same as that of the Adams Cty report and the description of the UFO is almost 100% identical. What's up with that???

[Military Activity in Ohio](#)

I was wondering what is up with the Military working around the Findlay Airport in Ohio. Me and a friend happened to see a strange aircraft with a large blue beam of light coming out from the bottom. My mom and sister saw almost the same thing the following night. Except they saw two of them and very close up with white lights beaming down. They hovered like a helicopter, but sped off much too fast to be a helicopter or similar hovercraft that I know of. I'd like to know what the deal with that was if anyone knows.

Re: Army Ammo Plant

Don't know if anyone has answered this question (it's pretty old!). I've lived here since the early 80's though and the planes and helicopters have been going over forever. Can't find anything on the net except Record Courier reports of a cleanup. I'm curious too! Any connection with the trumbull county sightings?
