# UFO/Paranormal Skeptics

Links to sites a documents that are primarily skeptical of UFO claims.

This page is intended for skeptics and skeptical sites covering multiple UFO topics. Skeptical reviews of specific topics (e.g. abductions, mutilations) should be linked to those topic pages, not here.

For alternate explanations of UFO phenomena see: [UFO Hoaxes](#) | [Earth Lights & Ball Lightning](#) | [UFO Hysteria](#) | [UFOs & Mental Illness](#). See [Felons & Felonies](#) for crimes connected with UFO claims.

(Any opinions expressed below are those of the reviewer.)

[Watch The Skies](#) by Curtis Peebles - This is a skeptic's history of the UFO movement, offering a plausible - although often

superficial - explanation for most of the major publicized UFO events since the 1947 Kenneth Arnold sighting. Anyone who has pursued any of these stories, like Roswell or the Travis Walton case, is bound to find grounds for argument, but it is still interesting to see the flying saucer phenomenon placed into an historical perspective. Anyone seriously interested in UFOs-both pro and con-needs to read this book. At the least, it provides a good synoptic overview of the UFO movement, as well as plenty of references.
