Subject: Urgent! Yahoo! Search Index Censors Cydonia research!
To: list@cydonia.org

Since August 6, 1996 some new and startling information has come to my attention. Apparently, Yahoo! has deliberately changed the category of all of the websites contained within the category,

Science: Astronomy:Planets: Mars:Cydonia Region

If anyone tries to access or search the category

Science:Astronomy:Planets:Mars
<http://www.yahoo.com/Science/Astronomy/Planets/Mars/>

for Cydonia Mensae etc...you will get the following message,

"This search has been restricted to the category Entertainment: Paranormal Phenomena:UFO Information:Cydonia Region on Mars. For more matches try an unrestricted search across all categories."

Without notice and without regard to the actual content presented in any of the web sites in the Science category, Yahoo! has changed the category of all the sites listed under

Science: Astronomy:Planets: Mars:Cydonia Region

to that of

Entertainment:Paranormal Phenomena:UFO Information:Cydonia Region on Mars.

<http://www.yahoo.com/Entertainment/Paranormal Phenomena/UFO Information/Cydonia Region on Mars/>

The sites presented in this category also include the mirror of Malin's MOC site at LANL!!

IMO, this is a clear case of censorship. But, there are other factors to consider as well.

As I write this message to you, CNN reports that the Clinton Administration has abandoned the manned mission to Mars in favor of an unmanned robotic mission instead, early in the next decade.

So far, there has been absolutely ZERO press coverage of this announcement. In fact, I have yet to see a news wire covering this story.

Here is a list of sites affected by Yahoo's silent change:

A. The Malin MOC camera page at LANL,
<http://bang.lanl.gov/solarsys/facedisc.htm>

[Observations of the "Face on Mars" and similar features by the Mars Global Surveyor Orbiter Camera, Michael C. Malin, Principal Investigator, Mars Global Surveyor Orbiter Camera]

B. The McDaniel Report Newsletter
<http://ourworld.compuserve.com/homepages/mcdrpt/>

C. The Cydonia Zone Link and Research page
<http://www.cydonia.org/zone.html>

D. The Cydonia Files - Joe Schembrie
<http://home.navisoft.com/cydonia/cydonia.htm>

E. Cydonia -John Joseph Merceicia/Hoagland

<http://www.ufonews.com/cydonia.htm>

F. The Mars Face and The Tower of Babel
<http://members.gnn.com/JCCunn/mars.htm>

D. NASA Secrets
<http://wpmc1.wpafb.af.mil/hideout/neo/neo8.htm>

Pedro Rosa's site,

Mars - Battlefield Cydonia
<http://www.ksu.ru/~prosa/cydonia/cydonia.html>

has disappeared altogether from the Yahoo!
index.

As many of you know Yahoo! is pretty much run
out of Stanford, and Stanford's Mars program
is quite prestigious.

If any of you have any suggestions as to a
course of action that can be taken or can point
out anything that I've missed, please e-mail me
at this address:

censorship@cydonia.org

Thanks for your help in this matter. Once
again, feel free to e-mail me with your
comments.

Josh
