

In an email to me (Aug 30, 1995), ppjc@ix.netcom.com says that about five years ago he had dinner with SENATOR BARRY GOLDWATER and brought up the subject of UFOs....

"He told me that he had called and wrote, on numerous occasion, asking the Commanding General of Wright-Patterson AFB for access to the Blue Room. He used the Generals name but I don't remember who it was. He said that they were getting very tired of hearing from him and the only response he would get was, 'Barry Goldwater you go to hell.' He told me that he doesn't know anymore then the rest of us but that he is sure that they are hiding something very big, his guess is that it really is dead aliens."

"He is a very eccentric man with a 'huge' ego. It was hard to get a word in edgewise. I would of liked to have had time to ask him more questions but didn't."
