(Any opinions expressed below are those of the reviewer.)

[The UFO Cover-Up \(Clear Intent\)](#) by Barry Greenwood - This classic 1984 volume was the first credible review of the U.S. government UFO cover-up, focussing on documents obtained through the FOIA act. The authors produced reams of UFO related material which the government originally claimed it did not have. Details on military/UFO encounters including the 1975 Loring AFB incursions. Includes plenty of references for further research. A standard UFO reference, that should be included in any UFO library, especially considering its low cost. (This is probably the second UFO book you should buy after "Above Top Secret".) Formerly titled "Clear Intent". ([More](#)) -- #cu \$11.00.
