MR HAYAKAWA, YOU ARE RIGHT!

New World order and End Times

Congratulations on a great set of pages Norio - I'm sure we all realise the necessity for this sort of information at this particular point in history. I'd like to put forward the idea that maybe the nwo could take the form of a 'salvatory new age' of peace and harmony, and that Antichrist and his minions might appear as 'beings of light and love' to save us from an oppressive enslaving nwo engineered by the 'forces of darkness.'

After review of the pics and from additional pics of the same area there seems to be a similarity between the shape of the concrete pad between the compound and the road that looks like the Federal building complete with the approximate locations of the pilings that were reported to have additional charges attached.

great set of web pages norio hayakawa- you're one of the few people that really is beginning to get a handle on what the REAL new world order-ites are up to. One new bit of new information: its been speculated that the Antichrist will descend on the Mount of Olives, Israel in a UFO or saucer craft (made by NWO secret/black budget \$) to then proclaim himself "GOD"

[UFOs: Secrets of the Black World](#) - This is a German-made video marked by poor production values, sloppy editing, laughable English-language dubbing and a complete lack of skepticism. It is also our Number One recommended video on Area 51! Filmmaker and tabloid publisher Micheal Hesemann may have an ego the size of Manhattan, but at least in this video he lets people talk. This tape contains over two hours of interviews with Bob Lazar, George Knapp, John Lear, Norio Hayakawa and virtually every other Area 51 UFO character from the plausible to the ridiculous. (The only player missing is Our Director, whose interview was deliberately cut by Hesemann in personal dispute.) Lazar describes his S-4 experiences in a performance almost as complete as on "The Lazar Tape." He is followed by Knapp, Jim Goodall, Wendell Stevens, Bill Uhouse and an alleged S-4 security guard, all telling interesting tales. In most videos & TV shows, all you get are sound bites; here you can watch people ramble at length, giving you more opportunity to judge their personalities. Watch Sean Morton's ego just ooze off the screen and experience Gary Schultz's rambling paranoia. Since judging personalities is the key to any truth at Area 51, this video is an important research tool and is probably the only one worth getting. Its two hours are never boring and are just long enough. *The \$40 pricetag is too much (should be about \$25), but it's cheaper than hunting down these people yourself.* --gc #black \$39.95 - [More Info](#).
