    - ¶Lazar made up the story on his own based on his own significant technical knowledge, his peripheral work with a contractor on the Nellis Range and the prior Area 51 alien claims of John Lear.... What was Lazar's motivation? Money. Under Theory #1, Lazar cooked up the story to obtain funding from Las Vegas philanthropist Robert Bigelow, who was known to sponsor far-out projects.

      - ¶I have avidly followed the development/degeneration of Hular for several years now and have delighted in his subtle insight into human nature. His loud and foul rantings always make me sentimental for my lost youth - the 2nd or 3rd grade in particular. Regarding "Bob Lazar" - Latest First

### *Former Defense Contractor Employee*

*Having worked for a defense contractor, I have seen the way parts for "Black Projects" are disguised to hide from the workers what they are actually working on. Based on personal experience I believe what Mr. Lazar is saying could be true.*

-- Danny Sharpe 1/21/98 (#30)

### *LAZAR is A OK with me*

*I interviewed Bob for a TV show I do and he seemed very believable to me and my crew. If he could prove all he says. it would be the biggest story in the history of mankind!*

-- Don Garlits ([Garlits@USA.net](mailto:Garlits@USA.net)) 12/26/97 (#29)

### *Similarity To "Billy" Meier's UFOs*

*I am perturbed that the UFO that Lazar supposedly worked on bears a striking resemblance to one of "Billy" Meier's "models", photos and sketches of the craft can be found in Wendelle Steven's 1978 book "UFO (contact) from the PLEIADES" (A PRELIMINARY INVESTIGATION REPORT). So, are Meier's photos hoaxes or is Lazar bullshitting at his best? Why there hasn't a public outcry from the UFO "community. As the president of The Testor Corp. told me over the phone when I brought to his attention the similarity between Lazar's UFO & Meier's UFO: "If you are not the copyright holder, mind your own business" or words to that effect. Someone out there with pull: INVESTIGATE THIS!*

-- Edward Lopez ([nyced@webtv.net](mailto:nyced@webtv.net)) 12/18/97 (#28)

### *Lazar is right*

*People who are or were on the inside should tell the public the truth. I believe Bob's story intirely as should the rest of the world. It would have been better if he had physical tangible evidence to support his story. I guess the rest of the world will find the truth about aliens when they come down in their mass numbers and meet us cruel human beings.*

-- Tim D. German 12/17/97 (#27)

[Lazar Poster](#) - The veracity of the Lazar claims aside, this is still a neat poster. It shows three schematic views of Lazar's "Sport Model" flying saucer found at the legendary "Area S-4." Includes cutaways and explanations of saucer components and functioning. In the background is a Russian satellite image of the Papoose Lake area -- an added bonus. Interestingly, the image fails to show any features that support Lazar's story -- except for an ambiguous "bubble" hovering over Papoose Lake! (It could be a flying saucer, or an artifact of the imaging. You might have to locate a Russian satellite imagery expert to find out.) It is an attractive poster by the Lazar/Huff conglomerate that really ought to be on Agent Mulder's wall. --gc #lp \$15.00 - [More Info](#). [Lazar S-4 Spacecraft Model](#) - Testor's plastic model kit of one of nine alien craft allegedly housed at Papoose Lake and examined by Bob Lazar. Details adhere strictly to Lazar's claims. Clear shell displays interior of craft, complete with "gravity amplification system" and seating for 3. An accompanying 15-page booklet describes the Lazar story. Kit also includes scale model alien pilots and a security guard, as well as a booklet explaining the Lazar story, and nice color images of Papoose Lake taken by a Russian spy satellite. Designed by John Andrews with Bob Lazar. *Overpriced, given the simple design.* --gc #saucer \$25.00 - [More Info](#). To order, call 702-227-1818, or [Add to On-Line Shopping Cart](#).

[Little Bob](#) - This is a hand-painted sculpture of Bob Lazar doing what he does best: reluctantly explaining anti-gravity propulsion systems at the blackboard. He is wearing a white lab coat, quite useless of course, but it does make him look more like a "scientist." The Research Center commissioned an anonymous artist to produce this work, preserving in rock-like material the "Little Bob" we fondly remember. Forget the missing educational credentials and that sordid brothel case; this Bob is real and will never move from his dignified position. This model is Totally Unauthorized by the other Bob, so it will be available only from the Research Center and in limited quantities. Each model is hand-produced and hand-painted by the artist. This heirloom is not sold in stores at any price! --gc #littlebob \$30.00 - [More Info](#). To order, call 702-227-1818, or [Add to On-Line Shopping Cart](#).
