

Illobrand von Ludwiger

Theoretical physicist and head of MUFON-CES, Munich, Germany

The information below is a compilation of available documents, data and opinions regarding this individual. The page is not intended to be exhaustive, and it will always be incomplete. The structure of this page should be neutral, but the documents referenced by it and any evaluations given in quotes may not be; these do not necessarily reflect the opinion of the page sponsor. Wherever any non-neutral position, opinion or evaluation is expressed in the referenced documents or in quotes, the sponsor will provide a link to a rebuttal upon request.

Input requested! Please send any information, documents, reviews or URLs regarding this person or his work to the page sponsor at: webmaster@ufomind.com

1. **Position:** Director of MUFON's Central European Section (MUFON-CES) and head of its theoretical group.
2. **Employment:** Theoretical Physicist for a German aerospace firm.
3. **Education:** M.S.
4. **Ideas:**
 - Supporter of a theory of physics developed by Austrian physicist Burkhard Heim, which proposes a six-dimensional view of the universe.
 - Believes no energy can be obtained from a vacuum as suggested by Hal Putoff, et al.
5. **Positive Connections:**
 - [Rolf-Deiter Klein](#)
 - [Richard Haines](#)
6. **Negative Connections:**
 - [Michael Hesemann](#)
 - [James J. Dilettoso](#)
7. **Interested in:**
 - Claims of [Bob Lazar](#). von Ludwiger says that his early theoretical work accurately predicts the effect of element 115 that Lazar describes.
8. **Dismisses:**
 - Claims of [Billy Meier](#).
