## Alien Abduction

Cases related to abduction or other involuntary physical contact with aliens.

The people listed on this page are researchers into abduction, not necessarily [abductees](#) themselves. For this page, a "researcher" is someone who studies many abduction cases, not just his own. For inclusion in this page, *physical* interference must be alleged, not just psychic or spiritual interference.

### i was abducted

I was abducted when I was 4 and I know it wasn't just(in my head),because I didn't know anything about aliens when I was 4.I'm now really in to alien abductions because I've just got to know about this and tell others of my experiance.

### Alien Abduction and Repressed Anality

I have read a few books on Alien Abduction and I havn't heard anything about the supposed "anal probes" conducted on male abductees that is part of the popular mythology. All I've read about is sperm being extracted for reproductive experiments. Have I just not read enough or has the anal probe procedure been grafted on to the alien abduction narrative and really is not a part of reported abductions? If this is so, if abductees are not reporting anal probes, could this cultural distortion be an expression of repressed male anal eroticism? The homophobic comment that follows mine could be offered as evidence of this theory.

### hospial visit

I was in the hospital schdeduled to have surgery. On the second day on my hospital visit I was sitting with my aunt and my mom and we saw a blue abnormal shape blur through the the sky. Well, later on I was sleeping and I woke up some weird gray guy was porking me in the ass. I fought him off, but he was just too strong. I found myself back in my bed with my I.V. out and I was bleeding all over the place and I had a sore ass. Down with all gay alien fairies.

(Any opinions expressed below are those of the reviewer.)

[Missing Time](#) by Budd Hopkins - This is the book that gave birth to a movement. It is perhaps the best introduction to alien abduction claims. Manhattan artist Budd Hopkins stumbles upon a mystery more bizarre than any fiction. Otherwise sane people find unexplained gaps in their memory. Under hypnosis, however, many are able to recall in vivid, convincing detail their encounters with strange beings, including harrowing experiments which appear to leave mysterious scars on their bodies. The similarity of detail in stories told by witnesses who have had no contact with each other convinces Hopkins that the stories are real. This is among the most interesting of the abduction books because at the time it was written the stereotypical ... ([More](#)) -- **#missing \$5.99**. [Alien Abduction & Contact](#)

[Intruders: The Incredible Visitation at Copley Woods](#) by Budd Hopkins - Budd Hopkins' follow-up to his earlier bestseller [Missing Time](#) offers a startling thesis: Not only are aliens abducting our citizens; they are using them in breeding projects. These days, it has become a cliché: Aliens want us for our eggs and sperm, like cosmic rapists. This book was the first widely circulated work to make these claims, and it is up to the reader to decide who is the most sinister force: Is it the aliens who are doing the implanting, or has the book itself implanted the idea in public consciousness that these events are taking place? As with all the other abduction literature, you can take it either as fact or fiction, but there is no doubt that the social phenomenon is ... ([More](#)) -- **#intrude \$5.95**. [Close Encounters of the Fourth Kind: A Reporter's Notebook on Alien Abduction, UFOs, and the Conference at M.I.T.](#) by C.D.B. Bryan - Describes the rather remarkable abduction conference held at M.I.T. in 1992. Bryan entered the conference fairly skeptical, and over its course became convinced something extraordinary was going on. Bryan gives a good account of the conference itself, but also adds a lot of behind-the-scenes information, including the "politics" of the various factions of the abduction community. In addition to his coverage of the conference, the book includes a number of supplemental interviews of participants (both researchers and abductees) done after the conference. This is perhaps one of the most important books on the topic of abductions, as it covers the full range of the experience. ([More](#)) -- **#fourth \$13.95**. [Alien Abduction & Contact](#)

[The Myth of Repressed Memory](#) by Elizabeth Loftus - "False Memories and Allegations of Sexual Abuse." While not dealing specifically with UFO beliefs, this book can be taken as a skeptical work regarding alien abduction claims. It attacks the reliability of "reconstructed" memories, those that have supposedly been repressed by traumatic experiences and recovered years later during hypnosis or psychotherapy. The authors argue that what we regard as solid memories are in fact highly fluid, and traumatic memories can be as easily confabulated as recovered. The many case studies contained herein focus on false allegations of sexual abuse that have destroyed many families. False memories often serve a protective function, and if you believe that a memory can be repressed and later ... ([More](#)) -- **#repressed \$13.95**.
