Subject: More news from Moriches Bay, Long Island

Here's the latest hot, smoking poop from Moriches Bay, Long Island.

On their 10 a.m. broadcast this morning, Friday, December 13, 1996, USA Radio news confirmed that a Saudi jetliner had encountered a "greenish white object with a long tail" over Moriches Bay, Long Island.

The sighting was confirmed on radar by the FAA Center in New York.

James Kallstrom, the FBI special agent in charge of the TWA 800 investigation, was interviewed on the radio. Kallstrom reportedly said that was it "was still too early" to say exactly what the object was, but "it might turn out to be a Geminid meteor."

The object was sighted at 6 a.m. on Thursday, December 12th, nearly 72 hours BEFORE the start of the Geminid meteor shower.
