No more needed. You see, the 3d Mobius transcends all
all dimensions in infinity. How could you have missed this?
The one thing that stands out is that the 3d Mobius exists
in both Euclidian and non-Euclidian space. It is both material
and non material in that aspect.

I challenge anyone on the face of the Earth or from anywhere
in the universe to refute my statments above. It cannot be done.
