Just a minor correction : Giza, the Chinese Pyramid, Mars Face, Glass Shard .. etc are not themselves located at 19.5 degrees on their respective planets. 19.5 degrees is a number encoded in certain aspects of these monuments or their lat/long location. See Carl Munck's book, The Code 1997, for more information on this subject (available from <http://www.lauralee.com>).

Regarding the position of the shuttle STS-48 over Australia, it was either a coincidence for it to have filmed those UFOs while over 19.5 degrees or else it was a "pre-planned, symbolic event" ... just like the Mars Pathfinder having a tetrahedral shape and landing at 19.5 degrees ... or the lunar landings occurring when Sirius was at 19.5 degrees above the lunar horizon.

Regards,

JJ Mercieca
