 Subject: 1977 UFO newspaper article

Hi,

I'm attaching a scan (low quality unfortunately) of a 1977 newspaper article that shows 3 photos of 2 UFOs streaking across the sky. While not all that extraordinary, these photos have the "honour" of being the first ever UFO photos taken over the Maltese islands.

Some background info on these photos and other Maltese UFO sightings can be found at <http://207.167.67.197/local.htm>

 25 June or September 1977

Witnesses : Raymond DeGiovanni and Charles Mamo

Location : On a boat in the Grand Harbour, Malta

Object : Bright, Luminous object with no distinct shape

Sound : None

Notes : The first ever photos of a UFO taken by a Maltese. The photos show two bright luminous objects which seem to move at great speeds, enough to leave bright, zig-zagging streaks on film taken at 1/250 th of a second shutter speed. These photographs were published in the Maltese language newspaper, It-Torca.
