Sudbury, Ontario Sighting Reports

From: **UFO UpDates - Toronto** <updates@globalserve.net>
Date: Tue, 29 Apr 1997 12:23:37 -0400
Fwd Date: Tue, 29 Apr 1997 12:23:37 -0400
Subject: Sudbury, Ontario Sighting Reports

I received the following via Chucc Corville, in Sudbury, northern Ontario this morning. They're from Michel M. Deschamps, MUFON Ontario's Sudbury Section Director.

[Forwarded from Michel M. Deschamps]

Todd Fraser and I got word of a UFO sighting near one of our local hot spots:

Date: Saturday, February 1, 1997
Location: Whitefish, Ontario

A man was up watching sports on TV until 12:40 a.m. when he noticed a yellow light coming through the kitchen window. When he looked out the window, he noticed two quarter-moon-shaped objects hovering about 100 feet in the air over the neighbour's property (The property is located on the opposite side of the street, across from the house). The objects were slightly blocked from view by tall trees in the foreground. As he watched the UFOs, the thought of reaching for his rifle crossed his mind, but then, he decided to go into the living room instead, where the large bay window offered a better view of the event. But by the time he got there, the two objects were gone.

About a week later, the witness's son and daughter-in-law, who reside in Cochrane, Alberta, observed a similar sighting of two quarter-moon-shaped UFOs. No details on that one. Our investigation is on-going.

Date: Thursday, April 3, 1997:

Location: Wikwemikong Indian Reserve, Manitoulin Island, Ontario

I received a call from a man who told me the following:

In the early hours of the morning, unable to sleep, he happened to look out of his living room window and noticed a yellow, saucer-shaped object a few degrees above the horizon. In the foreground stood a street light. The time was approximately 4:00 a.m. and the sky was overcast. He estimated the size of the object to be about half a cigarette held at arm's length. He also said that at one point, the light blinked out for half a second or so, then reappeared. Soon after, the object disappeared from view.

When he told his girlfriend about his sighting the next day, she said it must have been the northern lights. He responded by saying that the UFO was in the southern part of the sky and the northern lights usually occur in the northern sky.

NOTE: Don't forget to send these to UFO ROUNDUP. Thanks.
