Subject: Alfred's Odd Ode #71

Apology to MW #71 (For January 2, 1997)=20

And bite me gross humanity
Though you crushed me like a bug
Though you casually swept an idle glance
And made me victim of some slug.

You=92ve been wrong hearted, unjust =96 untrue
You=92ve played the game uneven.
You=92ve writ the rules conveniently
Just a few =96 do better than just even.

Society is your tangled web
Of advantage taking schemes.
Sociopaths, working rules they wrote
Eviscerate our dreams.

Religious hucksters buy their boats
On the bowed backs of their people.
Politicians fellate the rich . . .
Good folks die beneath church steeples.

Science is worse than the old Catholic church.
Despotic, jealous, and haughty.
Disdainfully hoarding its share of the power
Unrepentant =96 its own record is spotty.

Consider Hale-Bopp as it=92s currently circuiting=20
And remember, astronomical event of the century!
Companions of star stuff -- through our space the *first time*
Science panders us pictures of Hiyakatake . . .

Newt=92s puppied face assuring integrity
Smoked the old speaker to get where he was. . .
Find out that later he is stealing from risk kids
Therefore wounding us all -- guess because. . .

And think of the press =96 that collection of whores
They shop and they preen , they live in collectibles
They sell soap, and deodorant !!
We know they=92re objectionable.

And lastly there=92s us, asleep with mad dreams.
Not seeing in shadows =96 to scared to look . . .
Societal design promotes that ignorance --
That=92s in too pricey college textbooks.

If they really were up front at all
They=92d provide an electric meter

That read a straight per unit price
Not their system of a cheater. =20

So ask you not, what=92s there for you
Don=92t think to ask for more.
There are folks who *earned* their right to gouge you
And over price you in their stores.

Yeah! Make fun of Art, and laugh and giggle.
Hold Chuck Shramek for derision!
But, pray they don=92t "up end" *your* rock
And expose *your* lack of vision.

Believe in Twitch, and Fun, and THE Roach.
And their repugnant nonsense. . .
". . . Aristotle=92s spheres are still intact!"
". . . No evidence, as it=92s in absence!"=20

But that=92s the way it was for us --=20
Before we had our cyber space!
Now we link in unpredicted ways
We are uncontrolled -- ALL OVER THE PLACE!

Consider the unthinkable!
It boggles at the mind!
Larry Flynt =96 *perhaps* is ethically superior
To Bush and Dole combined.

So rip the scales down from your eyes
And look around the planet
The kingdom sweet is still at hand.
But we=92re taught to curse and damn it.
