Subject: Re: UFO Military/Government Witnesses

Despite much efforts and publicity made by Greer and company, and the obtained support - and despite the threatening tone in his forthcoming revelations, I do not expect anything significant to happen. Nor would there be any reaction, reflecting fear or annoyance either from the White House Administration, or the intelligence components.

Greer and co. do not talk with the required language to influence the spheres they itemised as targets.

Greer's attempt might win him a psychological coup in the ground level "ufological" domain - that's where the buck stops.
