Subject: PNS - 'Structured Craft' UFO Taped Near Area 51

the PARANORMAL NEWS SERVICE (pns) sends you this :

- 1) The UFO Museum in SF,CA has started a news service that sends out mostly short items to other media and some investigators. They will be sporadic and hopefully, useful.
- 2) First News item:

STRUCTURED CRAFT UFO VIDEOTAPED NEAR AREA 51. As may have been stated before by other sources, several California men on a tourist visit to the Rachel,NV area near Area 51, have videotaped on Hi-8mm a sequence of the best and closest ever of a ufo close to Area 51. The craft resembles to some degree the "sports model ufo" as reported by alleged former employee engineering aide Bob Lazar, and the ufo photographed by Gary Schultz in approximately 1990 in the same area. According to the analyst, Chuck Clark, who lives in Rachel, the object is far more clear than any other ufos filmed there, and could well blow the lid off "Black budget" testing once the public gets to see the video, and the supporting witnesses statements.

Clark raises the interesting issue: If the gov't wants to hide these objects they seem to be testing, then why let them fly to adjacent areas where people are waiting to film them?

PNS speculates that the gov't wants us to know, and picks this method. If this is true, then the owners of the video should have nothing to fear on being identified.

PNS is a part of the UFO Museum,SF.
