Greg: re Frank Drake. I have no idea how Drake's ongoing security clearances would have effected his SETI work and don't see much point in speculating about it. His latest book with Dava Sobel certainly has a load of nonsense about both interstellar travel and UFOs. Disinformation?? I don't know. My point in response to a question was only that there is a more clear indication of his having access to highly classified material then for Sagan. It is interesting that Berkner of MJ-12 fame was very encouraging to Drake about his Ozma work. Stan Friedman
