Greer is suffering. He thinks he is the only legitimate source of information on CE-5 experiences.

I contacted that outfit years ago. (CSETI)

I've had interaction by means of communication with UFOs but this fact Greer (or maybe his subordinates) ignored and they did no follow up except to send a package which if I took seriously would have cost quite a few bucks.

Greer waves UN flags. I burn them.

Greer tries to interact with and become some type of UFO/Alien 'authority' positioned in governments. I take the stand that governments are a detriment to truth and deserve no respect.

CSETI seeks to become Blab-a-lon 5. I seek truth and am willing to kick some alien butt to get at it. In fact I'm willing to kick any butt to get at it.
