Regarding the above I sincerely hope that Bob Shell investigates other matters and sources rather more thoroughly:

Four Winds who produced the four Discovery TV shows are actually based in Leeds, England and to the best of my knowledge the shows were put together in London and Leeds based on film taken world wide.

Their researcher, Mary Davies, also comes from Leeds as does Martin Belderson, one of their producers. A group of people less likeley to be putting out disinformation I have yet to come across.

The four shows were commendable that in spite of being made mainly for an American market they dared to present a fairly scpetical view of the subject without debunking it. Therefore they *must* be working for the government!

I was used as a 'consultant' on the show so I feel qualified to comment on this matter - but then again the monthly cheque from the MOD helps!
