After I mentioned Michael Persinger's "impressive" research on UFO and earthquakes, Chris Rutkowski corrected me:

> **impressive-seeming* research, you mean, Greg! His methodology*
> *is flawed; he once showed how, statistically, airplanes and stars*
> *misidentified as UFOs were linked to distant, mild quakes six months*
> *before the UFOs (IFOs) were actually observed!*

Thanks, Chris. I'd already edited my mental Persinger file after reading your earlier posts.

I guess I was bending over backwards to be fair to someone I'd just called a "crackpot." Guess I was right the first time.
