There's a new book coming out by Larry Warren about the Rendlesham case, also known as Bentwaters. It's called "Left at Eastgate" and should be out anytime now. The publisher is Marlowe.

I've met Larry and feel he's very reliable. He was one of the AirPolice who went out and saw the object. His new book will reveal how the government intimidated most of the military personnel, Larry included, into staying silent for so long. When he decided to speak out, they wiped out his records and have denied him veteran's benefits.

He also reveals that one serviceman who encountered the object disappeared and was never found and how others, himself included, have developed numerous health problems.
