I'm not sure what there is to discuss.

Yes, glasses in one photo and not the other.

He has a sort of craggy, jowly face, which enhances the effect of the mole
in the right side of this face. Also the glare enhances this.

Actually, he looks exactly like the taxicab driver who gave me a lift
home from the airport Friday before last <grin>. But this guy said he was
a merchant marine for 30 years and he's either read everything written
about MMs or he really was one...

Well, its one of the first real items of the entire fiasco, I mean case.
So far, there's no film, no actual film labels, no other physical evidence.
This is obviously a real person...

Unfortunately, less than 1% of the US population is on the Internet. Maybe
Fox could put his picture on TV???
