With all of this money "Dr." Steven Greer is asking for in the past. You would think he would have plenty of money to remove any cancer for his CSETI members.

Steven Greer claims to be taking credit for the mass sightings in Phoenix as he "vectored" them in. Yet he can't vector in anything but some cancer. I personally think this man is a phoney. He claims to be able to vector in ET spacecraft, but can't bring forth any video, or photos. Just read the B.S. on the CSETI homepage for a good toilet read and look for any signs of photos or videos from these CSETI UFO encounters.

Personally, I met him on 3-13-97 for a brief dinner. He put his arm around me and I thought he was gay. So we left and then shot some footage of the strange lights that night. Later he claims credit for it.

My 2 cents worth.
