To the UFO Insiders: and all lists.

Speaking with Pat Parinello, a very fine fellow.....
he reminds me that his implant, taken away by Derrel Sims,
and given to Robt. Bigelow's National Institute for Discovery
Science (NIDS) to be analyzed, have not been reported on, at
least to him. Nor the other two from Patricia.

All this after two years.

If this is true, it is more ineptitude in giving all the
implants to one lab, if it is a lab, and not holding any back
to be held in reserve, or tested by another.

FWIW, and others may dispute this (please do, if you so feel)
this is too long and the excuses don't hold any longer.

Could it be that some "labs" are a means of dumping implants
and not getting them checked, and letting them "disappear"?
On purpose?

Is getting the work done "for free" always the best route?

Could this entire operation have been BUNGLED??? After all,
what point is there to operating on people, if the results are
"lost".

I cannot imagine this happening if it were Dr. John Mack or
Budd Hopkins.

If there is evidence that this is not the case, please advise.
One could be wrong.

Let's hear it, John Alexander, Sims and Leir.
