NEWSPAPER ARTICLE:

COUPLE REPORTS SEEING UFO FLYING OVER GALLATIN
The Gallatin County News
7/23/97

Sandra Brown and John Gardner of Gallatin County were driving through Sparta on Hwy 35 last Friday about noon when something they spotted in the sky grabbed their attention.

"You'd have to say it was a UFO," Said Brown. "We pulled over on the side of the road and watched it for about 5 minutes. Neither of us have ever seen anything like this before."

Brown said the object they saw in the sky was round, silver, had no wings and was a little bigger than a car.

It just kind of sat there," the startled motorist said. "It hung in the sky in one place and then in the blink of an eye disappeared."

She said it definately wasn't an airplane and was too big to be a weather balloon.

I know people will think we're crazy, but we really saw this. This is no joke," said Brown.

A check with the county dispatcher found no other recent UFO reports in the area.

Comment:

The above UFO sighting took place on Friday, July 18 around noon. At 12:30 p.m., the B-2 Stealth Bomber was sighted over the Cincinnati area by dozens of people, including T.A.S.K. Investigator Ron Schaffner. This location is 36.5 miles northeast of Sparta, Kentucky. The flight path of the Stealth Bomber was said to have been from north to south.

A reporter on-board a traffic-helicopter operated by one local news station was said to have also spotted the Stealth, and said, "I hope that thing's not armed!"

Although it was suspected that the Stealth fly-over was attributable to the Dayton International Airshow occurring during the weekend, T.A.S.K. has determined that the B-2 appearance was actually a pre-arranged flyover for the employees GE plant in Evendale, as per a
