Subject: David Adair (CSETI witness)

To Robert and all,

Last Saturday and Sunday I was in San Diego and met Dave Adair at the Whole Life Expo. I stayed and listened to his 2-hour talk. Very interesting.

He says he still has experiments going up in shuttles and contracts with the European Space Agency. These are points from which to start a background check as he emphatically said he does not and has not worked for NASA.

During his talk, I had trouble with the following claims:

- 1) He put pressure on a senator or congressman (I forget who this was) to obtain a 1.1 million dollar grant to build his rocket.
- 2) He actually obtained the money and built a "fusion containment" engine in 1971 at the age of 17!(Born in 1954 and is now 43) That he did work out equations on a board that were similar to those of Steven Hawking and met with Steven who told him that some of this math came to him (SH) in dreams as well.
- 3) That, at the age of 17, he was allowed to ignite and fly this fusion rocket from White Sands Missile Range in NM aimed at Area 51 in Nevada. That it worked the first time without prior testing. That a famous rocket scientist (...Rudolph) attended this momentous rocket test. That 9 Men-In-Black disembarked from a Black Airplane and flew him to Area 51 and that, once there, he entered the secure underground facility through a hangar where they took him to a special room to see an advanced Ferrari model of his fusion engine evidently manufactured by an alien culture!

David is an intelligent, entertaining speaker, but these, like other claims that have come before, are extraordinary claims and either David's credibility needs immediate support or we have just another anecdotal story.
