Subject: UFOS and RODS currently appearing over Roswell

Hello Everyone,

I found a very interesting web site about rod-shaped UFOs. Are they living beings? Jose Escamilla has over 500 hours of video of these mysterious objects.

Pat Mason

>From the web site of Jose Escamilla, Roswell Rods

<http://www.roswellrods.com/pre.html>

Welcome to the Roswell Rods Web site. For those of you that haven't heard about the RODS phenomena, you are about to find out what they are and what we are doing currently to analyze and gather more data about the phenomena.

Our aim here is to inform and bring you up to speed on the phenomena, along with other news about the UFOS and RODS currently appearing over Roswell and Midway, New Mexico and other locations we are being made aware of.

You will find out the difference between, insects, birds, jet aircraft and Rods and what it took to make certain we were not mis-filming anything, prior to releasing our findings to the public.

All in all, this is a fun page for all of you to enjoy. I don't want anyone out there to think I am forcing you to believe or dis-believe. Your opinions and beliefs are entirely yours. I am only presenting the evidence as we are experiencing it and want to share it with you.

I welcome all inquiries and questions pertaining to anything you find here at the site, and urge you to write us at:rods@rmi.net

Enjoy Jose and Karen Escamilla

WHAT ARE RODS?

Rods are cylindrical or cigar shaped objects that have been discovered appearing in the skies. The objects are not like the typical "cigar" shaped UFOS that have been reported throughout history.

The following are characteristics of Rods gathered over the past three years of our videotaped evidence and research:

They are from four inches to a hundred,(or more), feet in length.

Some are thin like spears.

Some Rods have what appear to be "appendages" along their torsos resembling Centipedes.

They travel at extremely high velocities barely visible with the naked eye.

They do exhibit some form of intelligence.

They are appearing everywhere.

They don't appear to be mechanical or made of metal.

They appear to be alive!
