Hi All,

Does this sound familiar to anyone else. There was a series of Books called GOR. These books were written by John Norman [???] not sure of his name. They were about a place called Counter Earth or GOR by it's inhabitants.

The planet was positioned in an orbit that mirrored that of the earth. The main character was Tarl Cabot a man of Earth who was captured and sent to GOR where he became a great warrior in their Warrior Caste.

The Planet was Ruled by the Priest Kings. Who were insectoid and had access to advanced technology ie. Spaceships/UFO's. They had humans from GOR mount capture missions to Earth on a regular basis. [They needed a fresh supply of Slaves]

There were also some other Technologically Advanced bad guy's. Who looked like great Apes and were very savage. They had bases around Jupiter/Saturn and fought it out, covertly, on GOR, where technology was deliberately restricted by the Priest Kings.

They were great SF/Fantasy books and the early ones were the best. Part of the story was that these were true chronicles,

sent/brought by Tarl Cabot to Earth.

Perhaps someone has taken these novels too literally, or perhaps they are true, ??? who knows. I think the former is more likely however.

Regards to All,

Mike
