I can't say what the general opinion is but I will offer an

insight regarding her discussion of Kenneth Arnold's interaction with Crisman and Dahl. As of this late date she is still unaware that Crisman worked for the US Central Intelligence Agency despite this being documented in literature dealing with Garrison's investigation in New Orleans and in UFO literature as well. This gives me the impression that she doesn't do much background research on the individuals in the stories she writes. I wouldn't classify it as investigative journalism, something more akin to folklore or less charitably fairy tales; what you read and spend your time on is your choice.
