<Generous snip....>

> >Corso writes that "the initial introduction of the integrated-circuit
> >chips from the Roswell crash had reached defense contractors as early
> >as 1947 in the weeks after the material reached Wright Field." But to
> >put his remark in perspective I'll give you the whole passage ("The Day
> >After Roswell" p. 177f):

> I have a source, which I cannot reveal at this time, which told me
> that the integrated-circuit technology was developed not from the
> Roswell Crash in 1947, but from a crash in 1942. That is all I
> can tell you at this time.
> I leave it up to the sleuths to check out this lead. Or, you can
> just trash it and continue argueing among yoursleves about Roswell.

> REgards, Mike

Hi Mike and List,

What lead? You're going to have to give us a little more than that to go on. We're not a bunch of psychics.<G> And you are never going to stop this List from arguing about Roswell. Tis it's raison d'etre. You can still give out more information without comprimising your source. For instance "where" and "how" and even narrow focus the "when".

What do you say Mike. Show us the money. After all, any one of us could throw something like that into the pot.

Don Ledger
