AEROPLANE AT PANAMA

Canal Authorities Searching Vigorously for Unwelcome Visitor

Panama, March 26.--The military and canal authorities are investigating a report reaching headquarters from the officers of the lock guard that an aeroplane has been seen flying over the Pedro Miguel and the Miraflores locks.

Major General George W. Goethals, governor of the canal zone, and Brigadier General Clarence B. Edwards, commander of the United States forces in the isthmus, both detailed men to make an exhaustive search for the machine, which is said to have been seen and heard over the locks last night. The air craft is also reported to have flown over Hill 15, which is heavily entrenched and located to the east of the Pedro Miguel locks, of whose defense it forms a part.

It is known that a Bleriot machine is owned on the isthmus at present, but its whereabouts has not yet been ascertained.

Possibly the investigation of this sighting survives in official files.

The reports from this era are interesting as many are found almost world-wide. The age of flight certainly captured the popular imagination everywhere.
