Subject: 1909 Delaware/New Location for Airships

Carl Feindt continues to tear into the Delaware newspapers. Probably no state in the US has been so thoroughly researched. Here is an article which may lead to other "airship" stories in a time and place not previously known for such reports.

SEE AIRSHIPS AT NIGHT

People of Middletown Tell Tales of Ghostly Dirigible with Lights

MIDDLETOWN, August 1.--A mysterious airship which flies only at night is causing considerable excitement and keeping the people of Orange county residing between Goshen and Newburg up nights in their efforts to get a look at it. For the past month persons who have been out late at night have reported seeing an airship, but few believed the stories.

For a week or more the flying machine had not been seen, but at 11 o'clock last night it made its appearance near Goshen. It was flying high in the air and carried a light which attracted attention.

It flew very fast and was last seen traveling in the direction of Newburg. Those who have seen the machine say it is shaped like a balloon and has wings on each side and a cigar-shaped car underneath. The sound of a motor was distinctly heard by those who saw the machine.
