Subject: Unusual Aerial Objects In East Lancashire, UK?

Dear All,

My colleague Sandra Grundy (sandra.grundy@virgin.net) informed me today that several intriguing sightings of 'anomalous lights' had been reported in the Earby area on the Lancashire/Yorkshire border in recent weeks. Sandra visited the witnesses and learned that on consecutive Saturdays (15th and 22nd August '98) a most peculiar 'plasma-like' orange light was seen by a number of witnesses.

The objects were said to be up to 30ft in length and appeared to have an 'undulating' and 'skipping' motion. They appeared to perform sharp turns and eventually disappeared into a valley.....

Given that this area is known for sightings of so-called 'earth lights' there is a possibility that we may be on the verge of a new outbreak. However, Sandra and the small Lancashire UFO Society investigations team is trying to get hold of as much information as possible.

Over the next few days they will be in the area and they hope to be able to present more detailed information soon.

Tim Matthews, for Lancashire UFO Society.
