Rebecca,

>PS. Someone from Minnesota tell me if one would find really green
>grass in Lake County, Minnesota on November 27, 1997.

Not very likely. Lake County is in the northeastern point of the state. Bordered on the south by the north shore of Lake Superior, and the Canadian border on the north.

They tend to get snowed under earlier in the year than we do in the central part of the state. Early frosts remove all green from the grass by at least November 1. Often much earlier.

I didn't see the program. Did they give a name of the town or township?

Regards,

Theresa Carlson
