Phil:

I was intrigued by your report: Straightforward, succinct, and loaded for bear. But we need a little help to get started:

What do you mean by "underground alien bases?"

What first led you to believe that you were working on underground alien bases?

Are you currently working on underground alien bases? If so, what work are you doing?

If you are not currently working on underground alien bases, what work were you doing while working on underground alien bases?

If you are currently working on underground alien bases, is there anyone else working with you?

If so, who are they, and what work are they doing?

If there are any others present, who are not working with you, who are they and why are they present?

If you are not currently working on underground alien bases, why aren't you?

Have you communicated your experiences regarding working on underground alien bases to anyone not on this List? And if so, who?

List the locations of the underground alien bases on which you

are currently working or on which you have worked in the past, in chronological order, dating from the most recent to the past.

Phil, its rare to find someone with firsthand knowledge who is willing to share it. The information you have is invaluable. Thank you for taking the time to help out on the questions.
