Bob,

I don't get it, You read my posting and then quote from it  
and still comment about Dilettoso. I thought I made it clear  
that I didn't care what he had to say about the videos of  
the "flares". Did you also read the whole Phoenix Times  
article? There was A LOT more than just comments &  
facts about Dilettoso.

Please, anyone on this list correct me if I'm mistaken but,  
Kal K's original posting failed to bring up the fact that the  
article in question states that the 8:30pm sighting was  
probably a formation of jets. Does Kal agree with this?  
If he does, then he must also agree that all of the  
eyewitnesses were totally unreliable as the article  
insinuates.

Kal does conclude, along with the author of that slanderous  
article, that the later sightings were flares. He doesn't bother  
to explain how they stayed in the air for so long. At least he  
didn't in his original post. They may turn out to be flares  
but nobody knows yet. Except Kal & the author it seems.

Kal states that he has proclaimed 1998 the year of accountability. Proclaimed? What is a King now?

I'm sorry, but Kal along with stating what he did about the article, should have also told us that the article makes fun of abductees who claim that some sort of hybrid program may be going on with us and "them". Whoever "they" are. Why didn't he say he was disappointed in that aspect of the article? Maybe because he thinks the abductees who tell that type of story are dilusional? I would be curious to hear his view on some of the negative things that were inferred in that article regarding some of the people that have claimed to have experiences. That includes a jab a Steven Greer's experience. I guess Greer made it up too huh?

Please, anyone please tell me if I'm the one being unobjective here. I may be wrong but I consider myself very open minded, objective & a critical thinker. I don't know what to think of the whole ET, UFO, Abductee and Secret Gov't claims. I do want to keep searching for the truth and not come to any conclusions until we have concrete evidence.

Maybe Kal is good for the UFO community. You tell me. At this moment, I don't think so.
