People of Earth,

I believe that I have just read the most important UFO book ever written. Not so much because of what it says but because of the source. The author, Phillip H. Krapf comes from the mainstream press. He spent 25 years of his career on the Metro Desk at the Los Angeles Times.

His book, "The Contact has Begun - The True Story of a Journalist's Encounter with Alien Beings" is what we've all been waiting for in the UFO community. It is the first communication between humans and the ETs with the intention to have formal contact between our governments.

The book is actually so fantastic in concept that it's even hard for a real UFO buff to believe.

I've said enough. Read it!
