Subject: Cydonia & Congressional Hearings

Hi All,

Check out the latest online news bulletin at Sky & Telescope magazine, it's the first time I've seen them mention the face on mars. the web address is:

<http://www.skypub.com/news/news.shtml>

Hopefully, if the new photos point to an artificial origin, then 60 minutes or shows like that will get involved. I believe this would open up so many doors for us. Could open congressional hearings on UFO/ET matters be far away?

I realize that in people's minds, they are two separate things. But I believe The Face and surrounding oddities may just open up enough minds that we can start making some real progress towards the truth.
