

It was not a surprise to those of us who had scoped Jeffrey out as a "mole" for some time. Doesn't the timing of Jeffrey's "conversion" strike you as just a bit too convenient?

He derailed the Roswell Declaration just at the most vulnerable and crucial time, and insured that it would not be taken seriously or lead to any release of information. The man is a traitor.

>With Jeffrey's approval and with the permission of MUFON, the  
>Journal of Scientific Exploration obtained permission to reprint  
>the article and to invite two experts in UFO studies to critique  
>it. The Jeffrey article and articles by Prof. Michael Swords,  
>Western Michigan University, and Dr. Robert Wood, a retired  
>research director for McDonnell Douglas, appear in the current  
>issue of the Journal (Vol. 12, No. 1, March).

<snip>

All well and good, but too little too late. Jeffrey has done his damage and crawled back under his rock. What can we accomplish now? The issue is dead.

Bob
